AFC Conference 2018 STUDENT DEVELOPMENT SPONSORED PRESENTATIONS

Engagement Matters

Presenting: John Fey, Pasco-Hernando State College

The connection between student engagement and student success is well documented. Learning, persistence, and attainment in college are consistently associated with students' being actively engaged with college faculty and staff, with other students, and with the subject matter they are studying. Recent research underscores this connection. A study using data from the Community College Survey of Student Engagement shows that benchmarks of active and collaborative learning and support is an important predictor of college completion.

Step Up Program

Presenting: Tracy Glidden, Eastern Florida State College

Hear from the SDC 2018 Exemplary Practice Winner who will share their best practice with attendees about the Step Up Program, which is a structured, educational program for at-risk students that provides guidance and support for navigating the college enrollment process.
